# Beno Saqeyan

Senior Software Developer

A skilled and experienced full stack developer proficient in Laravel and Vue.js, combining back-end expertise with front-end proficiency. Leveraging the power of Laravel's robust framework and Vue.js's reactive components, I create innovative and scalable web applications that deliver exceptional user experiences. With a strong understanding of modern web development principles and a passion for clean code, I strive to deliver high-quality solutions that meet client requirements and drive business success.
